

MILL RIVER PIPELINE
D.T.E. 04-26

FIRST SET OF INFORMATION REQUESTS OF THE DEPARTMENT OF
TELECOMMUNICATIONS AND ENERGY

- (1) Please refer to page 6 of the Petition where it states that survey activities “in most instances, should not result in any inconvenience to the property owner.” If survey activities should result in inconveniences, what such inconveniences can reasonably be anticipated by the Company?
- (2) According to the Petition there are three types of surveys Mill River will perform, a civil survey, an environmental survey and an archeological survey.
 - (a) Please state whether all three survey types would be performed on each parcel of land that the Company surveys.
 - (b) Please explain the sequence of the surveying (e.g. explain whether the environmental and archeological surveys would be conducted simultaneously or on separate days).
- (3) If no archeological excavation is necessary, what is the maximum number of days the Company anticipates being on any given landowner’s property?
- (4) If archeological excavation is determined to be necessary, what are the likely activities that would have to take place on the landowner’s property?
- (5) Explain how the Company would notify landowner’s of survey and any excavation activity.
- (6) Would any survey or excavation activity restrict landowner’s from using their property. If so, please explain.
